Email- dilawez4u@gmail.com

LinkedIn- [linkedin.com/in/syed-dilawez-ahmed](https://www.linkedin.com/in/syed-dilawez-ahmed)

I am a dedicated Environmental Engineer with over eight years of extensive experience in environmental and safety concerns, showcasing a strong commitment to environmental protection. My solid work ethic, paired with excellent communication and interpersonal skills, enables me to work collaboratively with a diverse array of stakeholders. I strive to apply my expertise in environmental impact assessments, water treatment, waste management, greenhouse gas emissions, air quality management, noise control, and spill prevention to enhance sustainability initiatives and minimize environmental impacts. I am enthusiastic about creating innovative solutions that adhere to environmental regulations and promote sustainable practices. With substantial experience in this field, I actively pursue professional growth through various training programs focused on safety and environmental matters. I hold a degree in Mechanical Engineering and a Master's Diploma in Occupational Health, Safety, Environment & Risk Management. In addition, I possess several certifications, including NEBOSH-IGC, IOSH Managing Safely, OSHA Academy Occupational Safety and Health Professional, along with Lead Auditor certifications in ISO 45001 and ISO 14001.

KEY SKILLS

Environmental and Sustainable Development, Environmental Impact Assessment, Waste Management System Design and Implementation, Greenhouse Gas Management, Carbon Emission Reduction Strategies, Water Treatment Process, Compliance with Environmental Regulations, Environmental Risk Assessment, Development of Environmental Awareness Programs, Hazard Analysis, Job Safety Analysis, Industrial Safety, HSE Management Systems, Accident Investigation and Reporting, Proactive Monitoring, Audits, Inspections, Key Performance Indicators including Leading and Lagging Indicators, Training and Counseling, Emergency Response Planning, Oil Spill Response Planning, Commissioning, Pre-Commissioning, Simultaneous Operations (SIMOP), Team Leadership and Project Management.

Experiences

From September 2023 to Present.

Position- Environmental Engineer.

Company- SAIPEM

Client- ENI

Consultant- RINA

Project- The conversion of Scarabeo5 from a semisubmersible drilling rig unit into a Floating Production Unit (FPU).

From August 2022 to August 2023.

Position- Health, Safety and Environmental Lead.

Company- INSCAF - SAIPEM

Client- OQ8

Consultant- Wood

Project- EPC PACKAGE 3 - OFFSITE FACILITIES (DUQM REFINERY)

From July 2020 to December 2022.

Position- Health, Safety and Environmental Engineer.

Company- Al Ramooz Group of company.

Client- be'ah - Oman Environmental Services Holding Company

Project- I am responsible for the following three micro-projects for the waste management system.

- Design, Construction and operation of an engineered sanitary landfill in Mudayabi.
- Waste collection, transportation & disposing to be'ah Landfill from Adh-Dhahirah and Al-Buraimi Governorates in Sultanate of Oman.
- Waste collection, transportation & disposing to be'ah Landfill from Al- North Sharqiyah Governorates in Sultanate of Oman.

From August 2019 to July 2020.

Position- Health, Safety and Environmental Advisor.

Company- International Expert Trading & Construction LLC (Sohar Port).

Client- Majis Industrial Services SAOC.

Consultant- Water Solutions International UK.

Project – Overseeing all below projects

- Booster Pump Station with Potable and Process Water Network for MISCO.
- Construction of Pumping Station at Al Wajajah water works site.
- Construction & Installation of Butterfly Valve Chamber in the Exiting Water Pipeline DN1600.

From July 2017 to June 2019

Position- Health, Safety and Environmental Officer.

Company- Aakash Exploration Service Pvt. Ltd.

Project- Provide oilfield services at the production stage.

EDUCATION & QUALIFICATION

- Bachelor of Technology in Mechanical Engineering - Himalayan University.
- Master Diploma in Occupational Health, Safety, Environment & Risk Management.
- Certified in Diploma in design Engineering (AutoCAD & Solid Work)

INTERNATIONALLY CERTIFIED

- NEBOSH International General Certificate.
- IOSH Managing Safely.
- 132 Hours, OSHA Academy Occupational Safety and Health Professional.
- ISO 45001:2018 OHSMS, Lead Auditor, IRCA Approved.
- ISO 14001:2015 EMS, Lead Auditor, IRCA Approved

YEAR OF EXPERIENCE

8+ years

SECTOR OF EXPERIENCE

- Oil & Gas
- Construction
- Waste Management
- Environment
- EPC & Infrastructure
- Water Plant

CORE SKILLS AND SERVICES

- Occupational Health, Safety and Environment Management.
- Safety Audit / Inspection
- Accident/ Incident Investigation
- Training & Development
- Multiple Project Coordination

LANGUAGE

- English
- Hindi
- Urdu
- Arabic

IT AND SKILL

MS Office (Word, Excel, PowerPoint, Outlook)

DRIVING LICENSE.

- India
- Oman

From September 2023 to Present.

Position- HSE Engineer.

Company- SAIPEM

Client- ENI

Consultant- RINA

Project- The conversion of Scarabeo5 from a semisubmersible drilling rig unit into a Floating Production Unit (FPU) will be performed through the following construction main phases:

- Inspection, Refurbishment / Repair and Life Extension activities
- Demolition / removal activities of all drilling equipment and modules defined by Engineering as demolition scope for Converting the SC5 into FPU
- Hull Conversion / Modifications, upgrade of the SC5
- Living Quarte renewal to increase the POB
- Topsides Modules Fabrication
- Transportation and Integration of Topsides Modules onto the SC5
- Mechanical Completion and Commissioning of the complete facilities

Roles and Responsibility

- Oversaw environmental compliance across both yard (construction and Module Fabrication), ensuring consistency with both corporate and local regulatory standards. This included the implementation of environmental safeguards, monitoring adherence to legislative requirements, and the integration of sustainable practices throughout the project lifecycle.
- Assisted in and evaluated the contractor's development of the project Environmental Management Plan, Waste Management Plan, and Spill Prevention Plan for execution.
- Assess the waste collection contractor to ensure adherence to waste management practices, including the handling, transportation, and disposal of waste materials. Confirm that the contractor possesses current permits and certifications as required by local authorities and verify their compliance with relevant regulations.
- Reviewing the contractor's monthly environmental report prior to submission to the corporate environment team. This report includes information on waste management, energy usage, water withdrawal and discharge, spill incidents and near misses, and third-party invoices for the collection of general waste, hazardous waste, and wastewater from chemical cleaning or other activities.
- Collaborate with the HSE Manager and client representatives to address work site issues with contractors while ensuring adherence to local environmental regulations, company procedures, policies, and safe work practices.
- Engage in weekly and monthly HSE meetings involving the client, company, and contractor to identify areas for environmental improvement and propose best practices.
- Perform regular site inspections to ensure compliance with environmental standards. These assessments cover various aspects such as waste management, correct labeling and storage of hazardous materials, effectiveness of spill response procedures, suitable ventilation and lighting, dust control measures for processes like sandblasting, gauging, and grinding, as well as the handling of wastewater and sewage, while also safeguarding marine waters from contamination.
- Conducted environmental assessments at multiple sites, such as the Fabrication Workshop, Painting Workshop, Sand Blasting Workshop, hazardous waste collection area, and paint storage facility. Evaluated VOC concentrations and verified the efficiency of ventilation and filtration systems, along with the waste gas disposal techniques employed in the painting workshop, which featured filtration, activated carbon desorption, and catalytic combustion processes.
- Gather and evaluate quarterly inspection reports from third party regarding yard emissions. This encompasses unregulated gases, emissions from fixed sources, noise pollution, sewage discharge, and seawater quality.
- Maintain all documentation pertaining to environmental management in an organized and easily accessible manner, ensuring they meet the necessary standards for reporting and auditing purposes.
- Provided training sessions for staff on environmental compliance and best practices, fostering a culture that prioritizes sustainability.
- Execute corporate environmental initiatives, prepare reports, and share updates on awareness campaigns with the corporate team on a quarterly basis for occasions such as World Water Day, World Environment Day, European Mobility Week, and European Waste Reduction Week.
- Supervise and evaluate the environmental drills conducted in accordance with the environmental management plan. This plan includes emergency simulations for oil spills in Seawater and hazardous chemical leaks at storage facilities. These exercises are carefully crafted and executed with defined objectives, realistic scenarios, and thorough debriefing sessions that focus on identifying strengths and opportunities for improvement. Record the outcomes and lessons learned from these drills to refine processes and enhance overall environmental safety.
- Ensures that lessons learned are communicated and that preventative measures are implemented and documented.

Personal Details

Father's Name : Syed Shafi Ahmad
Nationality : Indian
Date of Birth : 10/04/1996
Sex : Male
Marital Status : Unmarried
Languages Known : English, Hindi, Urdu, and Arabic
Driving License : India, Oman

Passport Details

Passport No. : P786114
Date of issue : 17/02/2017
Date of Expiry : 16/02/2027
Place of issue : Patna

Permanent Address in India

Furqan Villa, Nohsa
Post Office - Phulwari Sharif
City - Patna
State - Bihar
Country - India
Pin- 801505
Contact Numbers: - +917093190871

Declaration

I hereby solemnly declare that all statements made above are true and correct to the best of my knowledge and belief.

Date – 01-05-2025

Place – Patna, India
