PROFESSIONAL EXPERIENCE

Software Developer Trainee,

Webreinvent Technologies ✉

August 2023 – January 2024

At Toolstation (UK client):

- Managed the frontend codebase, integrated services like DataDog, Bloomreach CMS, and Lokalise, and implemented a payment gateway.
- Maintained MVC Code Architecture.
- Fixed bugs to improve app performance by 10%.
- Wrote unit tests and documentation, saving future developers time and making onboarding 50% easier.

On internal projects:

- Integrated Firebase Authentication, Storage, and Cloud Firestore.
- Worked on MVC Code Architecture.
- Incorporated notifications using OneSignal.
- Built scalable UIs that can adapt to future changes.

PROJECTS

AI Chat Bot

- Designed and implemented a chatbot using the Gemini API.
- Used Streamlit to create the user-friendly web interface.

NearKart ✉

An application that helps users find nearby vendors along with their location, available items, prices, and ratings.

- It helps users find nearby vendors along with their location, available items, prices, and ratings
- Available on both the Play Store and App Store.
- Provides real-time vendor location tracking for a seamless experience.
